Education

Vivekanand Education Society's Institute of Technology (VESIT)

Mumbai, India

BACHELOR OF ENGINEERING INFORMATION TECHNOLOGY

Aug, 2015 - PRESENT

- Secured a **CGPA: 9.43** (till sem 6)
- Built a good foundation of subjects like Discrete Math, Operating System, Theory of Computation, Applied Programming and Data structure & Algorithm Analysis.

Ramniranjan Jhunjhunwala College

Ghatkopar, Mumbai, India

HIGHER SECONDARY EDUCATION (CLASS 12) IN SCIENCE STREAM ALONG WITH COMPUTER SCIENCE AS BIFOCAL

Aug, 2013 - Aug, 2015

SUBJECT

- Percentage secured: **90%**
- Gained some basic knowledge about Physics, Chemistry, Mathematics and also did some introductory programming using C and C++.

Dnyanprakash Vidyalay

Ghatkopar, Mumbai, India

SECONDARY SCHOOL EDUCATION (CLASS 10)

Aug, 2003 - Aug, 2013

- Percentage secured: **94%**.
- Regularly participated in events and competition like drawing, science fair competition, and developed a keen interest in Computers.

Experience

VESIT Renaissance Cell (VRC)

Chembur, India

FULL STACK WEB DEVELOPER

Jun. 2017 - Exp. Aug. 2017

- Developed core modules in the content management system titled, **VESIT-CMS** for my institute.
- Digitize all the manual processes like Attendance, Student Enrollment, and Faculty Leave.
- Technology stack was Laravel, Bootstrap, Git, and MySQL.
- After this tenure, learned the importance of documentation, query optimization, and good communication skills.
- **Source Code**

Projects

E-Election

An Online Election Portal

PHP, BOOTSTRAP4 & MySQL

Jan. 2016 - Dec 2016

- Developed an easy and free to use an election portal for college students.
- Useful during annual Council Elections for various posts such as Class, Music, Sport, Sort, E-cell In-charge.
- Included various features like single sign-on, cast a vote, quick results and analysis.
- **Source Code**

Smart-Rakshak

A smart Home Security Solution

PYTHON, IOT, MACHINE LEARNING & FACE RECOGNITION

Aug. 2017 - Mar. 2018

- Developed an economic and effective security solution for the homes.
- Build with the help of latest technologies like the Internet of Things (IoT) for monitoring and data transfer purpose and Machine learning for Face recognition using Linear Binary Pattern (LBP) algorithm.
- After a motion detection there will be a face verification after which, only authorized personnel will be allowed to enter inside the home else Homeowner will be notified with an SMS and E-mail.
- Components used were Raspberry Pi Model B+, PIR sensor, webcam, and python language was used for coding.
- **Source Code**

Intelligent Codemate

PYTHON, BASH, NLP & WEB SCRAPING

A terminal based application

Aug. 2018- Mar. 2019

- Developed a novel approach to improve error solving process by suggesting an optimal solution to the error given by the program on execution.
- After passing the file to be executed on the terminal then, as per the file type it will be executed.
- If there is an error in the file, the error will be extracted and will be searched over the internet for the possible solution then an optimal solution will be displayed on to the terminal.
- **Source Code**

Quick Share

JAVA & SOCKET PROGRAMMING

A Command Line File Transfer

Aug. 2017 Dec 2017

- A Command line application to transfer one file from one PC to another connected in the same LAN.
- Only Source and Destination IP address need to transfer files, simple and quick because no authentication required.
- **Source Code**

Just Resume

VUE.JS AND BOOTSTRAP

A Dynamic Resume Building tool

July 2017 Mar 2018

- A tool to make resume building process more interactive and enjoyable.
- Features includes Free download and cloud storage.
- After filling all essential data user can download pdf of their resume for free.
- **Source Code**

Extracurricular Activity

VESIT

REGULAR PARTICIPANT, ORGANIZER AND MEMBER OF CSI-VESIT, ISTE-VESIT

Chembur, India

Jun. 2016 - Jun. 2018

- Won **First prize** in *Article Writing* event organized by ISTE-VESIT.
- Won **First prize** in *Cric-o-mania* event(Quiz related to cricket sport) organized by CSI-VESIT.

Honors & Awards

- 2018 **Published paper in IEEE Journal**, titled **Smart Home Security using IoT and Face Recognition**.
- 2017 **Second Runner-up**, Looking Beyond the Syllabus (LBS), a intra-college project competition.
- 2017 **Runner-up at VESIT Hacks**, a intra-college hackathon competition organized during Praxis'17.
- 2017 **Finalist at Crackathon**, a competitive coding competition organized by the K. J. Somaiya College of Engineering.
- 2015 **Secured Third Rank**, Awarded with **Rolling Trophy** and **Scholarship** for Excellent Academic performance in Class 12 by Innerwheel Club of Bombay.
- 2015 **Secured highest marks**, in Physics subject in Class 12 board exam (95/100) out of 1000 students.
- 2013 **Secured First rank**, in school in Class 10 board exam with 94% out of 300 students .

Skills

Programming Python, C/C++, JAVA, SQL, Bash

Tools Matlab, OpenCV, TensorFlow, OpenGL, 8051, Raspberry Pi, Arduino

Web HTML5, Javascript, PHP, CSS , JavaScript, Laravel, Bootstrap

Relevant Courses Certified in Python, PHP & MySQL and Java Business communication by Spoken Tutorial

Languages English, Hindi, Marathi
